

## Free School Readiness Program for Home-Based Providers with Children Entering Kindergarten in 2022

Waterford Upstart offers school readiness that gives children a fun start in reading, math, and science in just 15 minutes a day, 5 days a week that providers use as part of their daily plan!

### NO COST

Waterford Upstart provides children with school readiness at NO COST TO PROVIDERS the year before entering school.

Waterford will provide a computer at NO COST (which providers may keep upon completion) and Internet while enrolled if you don't have it.

### PERSONALIZED

Waterford Upstart uses the award-winning software Waterford Early Learning. It provides hundreds of hours of instruction with an individualized learning path, which builds upon children's strengths, knowledge, and skills.

Children receive personalized reading, math, and science lessons.

### INDEPENDENT & FUN

Waterford Upstart is easy to use making it possible for children to work independently and it will capture their interest and imagination with engaging books, songs, and activities. Providers just make certain children use it!

Waterford Upstart is available to children in the year before they enter kindergarten.

### FULL SERVICE SUPPORT

Each provider receives personalized coaching support that includes updates, guidance, and encouragement. You and children's parents can also monitor children's progress with Waterford MENTOR, an easy-to-use website and smart phone app.
